The world of the Simes and Gens is teetering on the brink. Zeth Farris reaches adulthood just when things start to fall apart.

When he finally understands the audacity of the social engineering experiment that his parents have set in motion, Zeth must build bridges with potential allies to hold the center together.

But war comes anyway, and Zeth and his alliance must prevail. The price of failure?--the destruction of his family, his culture, even his world!

Jean Lorrhah is a professional writer, the author of fifteen published science fiction and fantasy novels as well as a few short stories. Writing first fan fiction and later Sime~Gen,(Jacqueline Lichtenberg's universe.) Jean eventually went on to write her own Savage Empire series. (See information below). She has also written several Star Trek novels!

Channel's Destiny (and the complete saga so far) can be bought in paperback editions or in Ebook formats.
