An explosive election campaign sets off a dangerous crisis in the strange world of the Simes and Gens. Laneff Farris grew up believing that she had not inherited any of the special talents or strengths of the Farris family mutation. But a storm of politics sweeps her into an underworld where the line between Science and Magic blurs.

Which of two men should she follow? Or should she forge a completely new direction, and take the rest of humanity with her?

Jacqueline Lichtenberg, author of *House of Zeor*, *Unto Zeor Forever* and many other books in the Sime~Gen Universe has released this via Wildside Press's Borgo Imprint, the 12th book in the saga of humanity divided against itself. This is the story of how the House of Zeor - that we were introduced to in the book of the same name - was founded.

RenSime (and the complete saga so far) can be bought in paperback editions or in Ebook formats.

Lured by that hint of killbliss, she abandoned herself to the draw, increasing the Gen's pain by her swift demand.
