Award Winning Professional Writers

Started simegen.com to foster creativity

Become a Simegen.com Reviewer

Simegen.com/reviews/ seeks professional writers who are willing to review, not critique, books in their own and related fields.

Critiques are done in the WorldCrafters Guild School of Professional Writing, not in the reviews department.

Sime~Gen Reviews Department reviews only books worth their cover price to some readers. If you are capable of setting personal taste aside and analyzing a novel to alert its natural fans to its value, Sime~Gen Reviews wants you.
